

Fishing Industry Science Partnership (FISP)

STEP 01

Call the Fishing Animateurs

Discuss what is changing in the seas, and what the industry would like to learn more about.

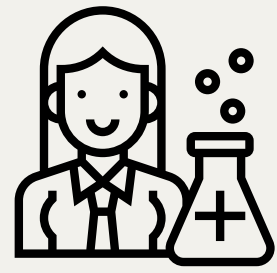

Themes include: Improving data collection, knowledge of technical measures and aquaculture.

STEP 02

Link with a scientist

If the idea fits the themes of FISP we will aim to create a link for scientists and fishers, to work together on their ideas.

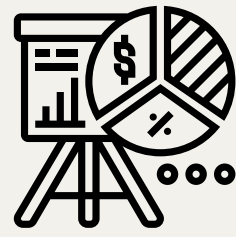

STEP 03

We write an application to FISP

Apply for 90% funding to help develop a research proposal to study your ideas..

The additional 10% to be covered by The Fishmongers' Company

STEP 04

Write a Collaborative Research Proposal:

Support is available from Fishing into The Future to work with researchers, share knowledge and design a research proposal, ready for the next stage of funding

Contact the Fishing Animateurs Team at fishing@cornwallrcc.org.uk or call on 01736 362782 / 07534580450 / 07864087119 to share your idea.

We have no formal or informal relationship with DEFRA
